

## Therma-Tru Benchmark introduces internal blinds, 10" sidelites; offering more options for homeowners

MAUMEE, OHIO – New internal blinds and 10" sidelites expand the Therma-Tru Benchmark product line, making it even easier for homeowners to find the perfect entryway for their home.

“Internal blinds from Therma-Tru Benchmark feature a cordless blind enclosed between glass, allowing homeowners to adjust the level of light and privacy at their convenience,” said Kate Haws, senior product manager for Therma-Tru Corp.

The blinds are protected between two panes of tempered glass, offering enhanced safety and performance. With no dangling cords, internal blinds from Therma-Tru Benchmark are a kid- and pet-friendly choice.

Designed to coordinate with many architectural styles, internal blinds are especially suited for Colonial, Cape Cod and Traditional homes. A variety of sizes and color options to meet a homeowner’s needs are available through Special Order.

Therma-Tru Benchmark internal blinds deliver exceptional energy efficiency to the home, with ENERGY STAR<sup>®</sup> certified options available. Internal blinds are backed by the Therma-Tru Benchmark fiberglass door system lifetime limited warranty, for peace of mind.

Therma-Tru Benchmark 10" sidelites are now available, featuring clear or Low-E glass. These sidelites bring style to any entry and pair well with doors that feature decorative or specialty glass, as well as solid-panel doors.

“We added our new 10" sidelites as an option to accommodate smaller entry sizes,” said Haws.

Sidelites welcome the beauty of natural light into a home and are backed by the industry’s most comprehensive lifetime limited warranty.
